WORK EXPERIENCE

Software Engineer(Full Stack Developer)
Greet lab Pvt Ltd.

07/2022 - 01/2024   *Bangalore,Karnatak*

Greet Labs Private Limited is an unlisted private company incorporated on 16 June, 2016. It is classified as a private limited company and is located in Bangalore, Karnataka.

Achievements/Tasks

- As a software engineer, I collaborated closely with my team members to successfully deliver client projects. One notable example is our work on the Know Your Provider (KYP) project, where I played an active role in developing comprehensive profiles for service providers. Working alongside my colleagues, I contributed to refining key features such as contact information, expertise areas, project history, and client feedback. Through our collective efforts in implementing robust verification processes and enhancing user interface elements, we ensured transparency, trust, and efficiency in our procurement procedures. This collaborative experience has not only honed my technical skills but also underscored the importance of teamwork and effective communication in achieving project success.

EDUCATION

Bachelor of Science
Khallikote Autonomous College,Berhampur

07/2017 - 12/2020   *Berhampur,Odisha*

Bachelor of Science

- Computer Science

PERSONAL PROJECTS

Car Rental (02/2021)

- The Car Rental project is a MERN (MongoDB, Express.js, React.js, Node.js) stack application designed for vehicle rentals. It includes user authentication, vehicle inventory management, booking system, admin dashboard, search/filter functionality, responsive design, reviews/ratings, and email notifications. This streamlined platform simplifies the rental process for customers while providing effective inventory management for the rental company.

Cricket Live Score (10/2023)

- The Cricket Live Score project is a MERN stack application providing real-time updates on cricket matches. It features live scores, match details, commentary, user authentication, notifications, search/filtering, responsive design, data integration, social sharing, and an admin panel for managing match data.
